Core Coaching

The Future of AR Tech

Our Vision

**Creating Interfaces for the world
around us to share experiences &
exchange ideas**

Usecases

1. Remote Assistance
2. Checklist Protocols

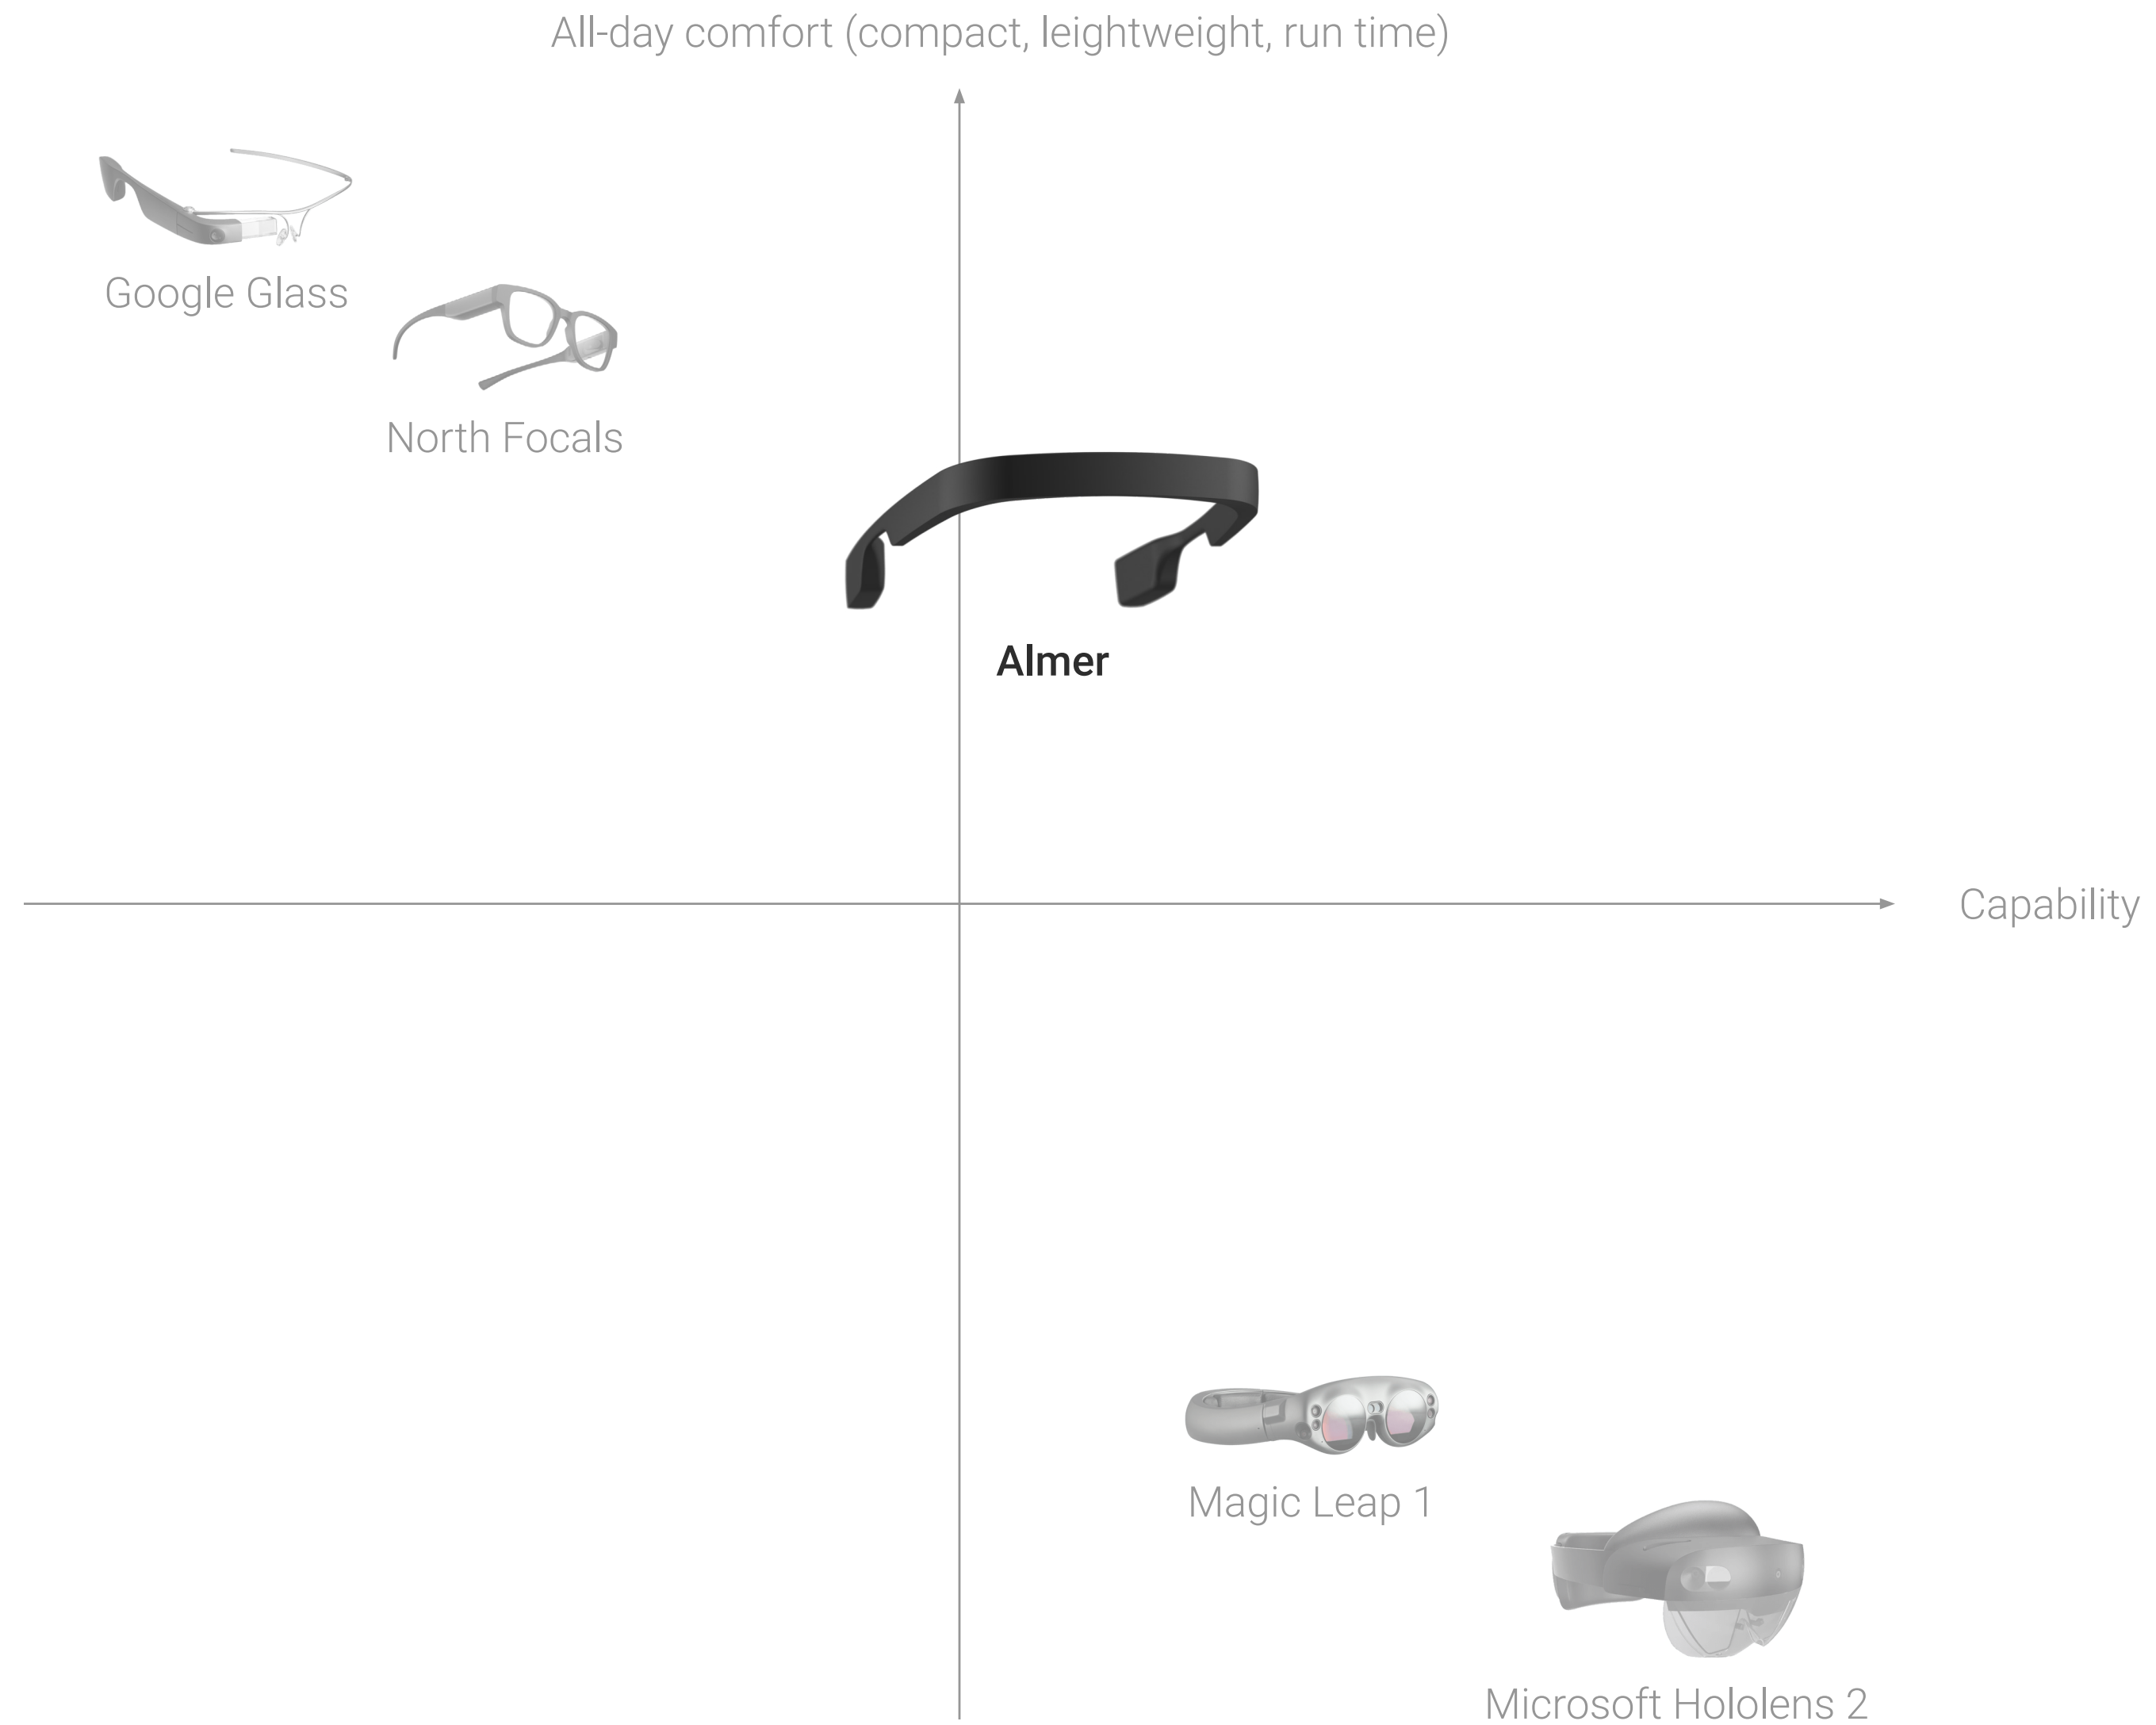

Almer AR Glasses

Lightweight augmented reality device to assist industrial applications.

Product Positioning

We want you

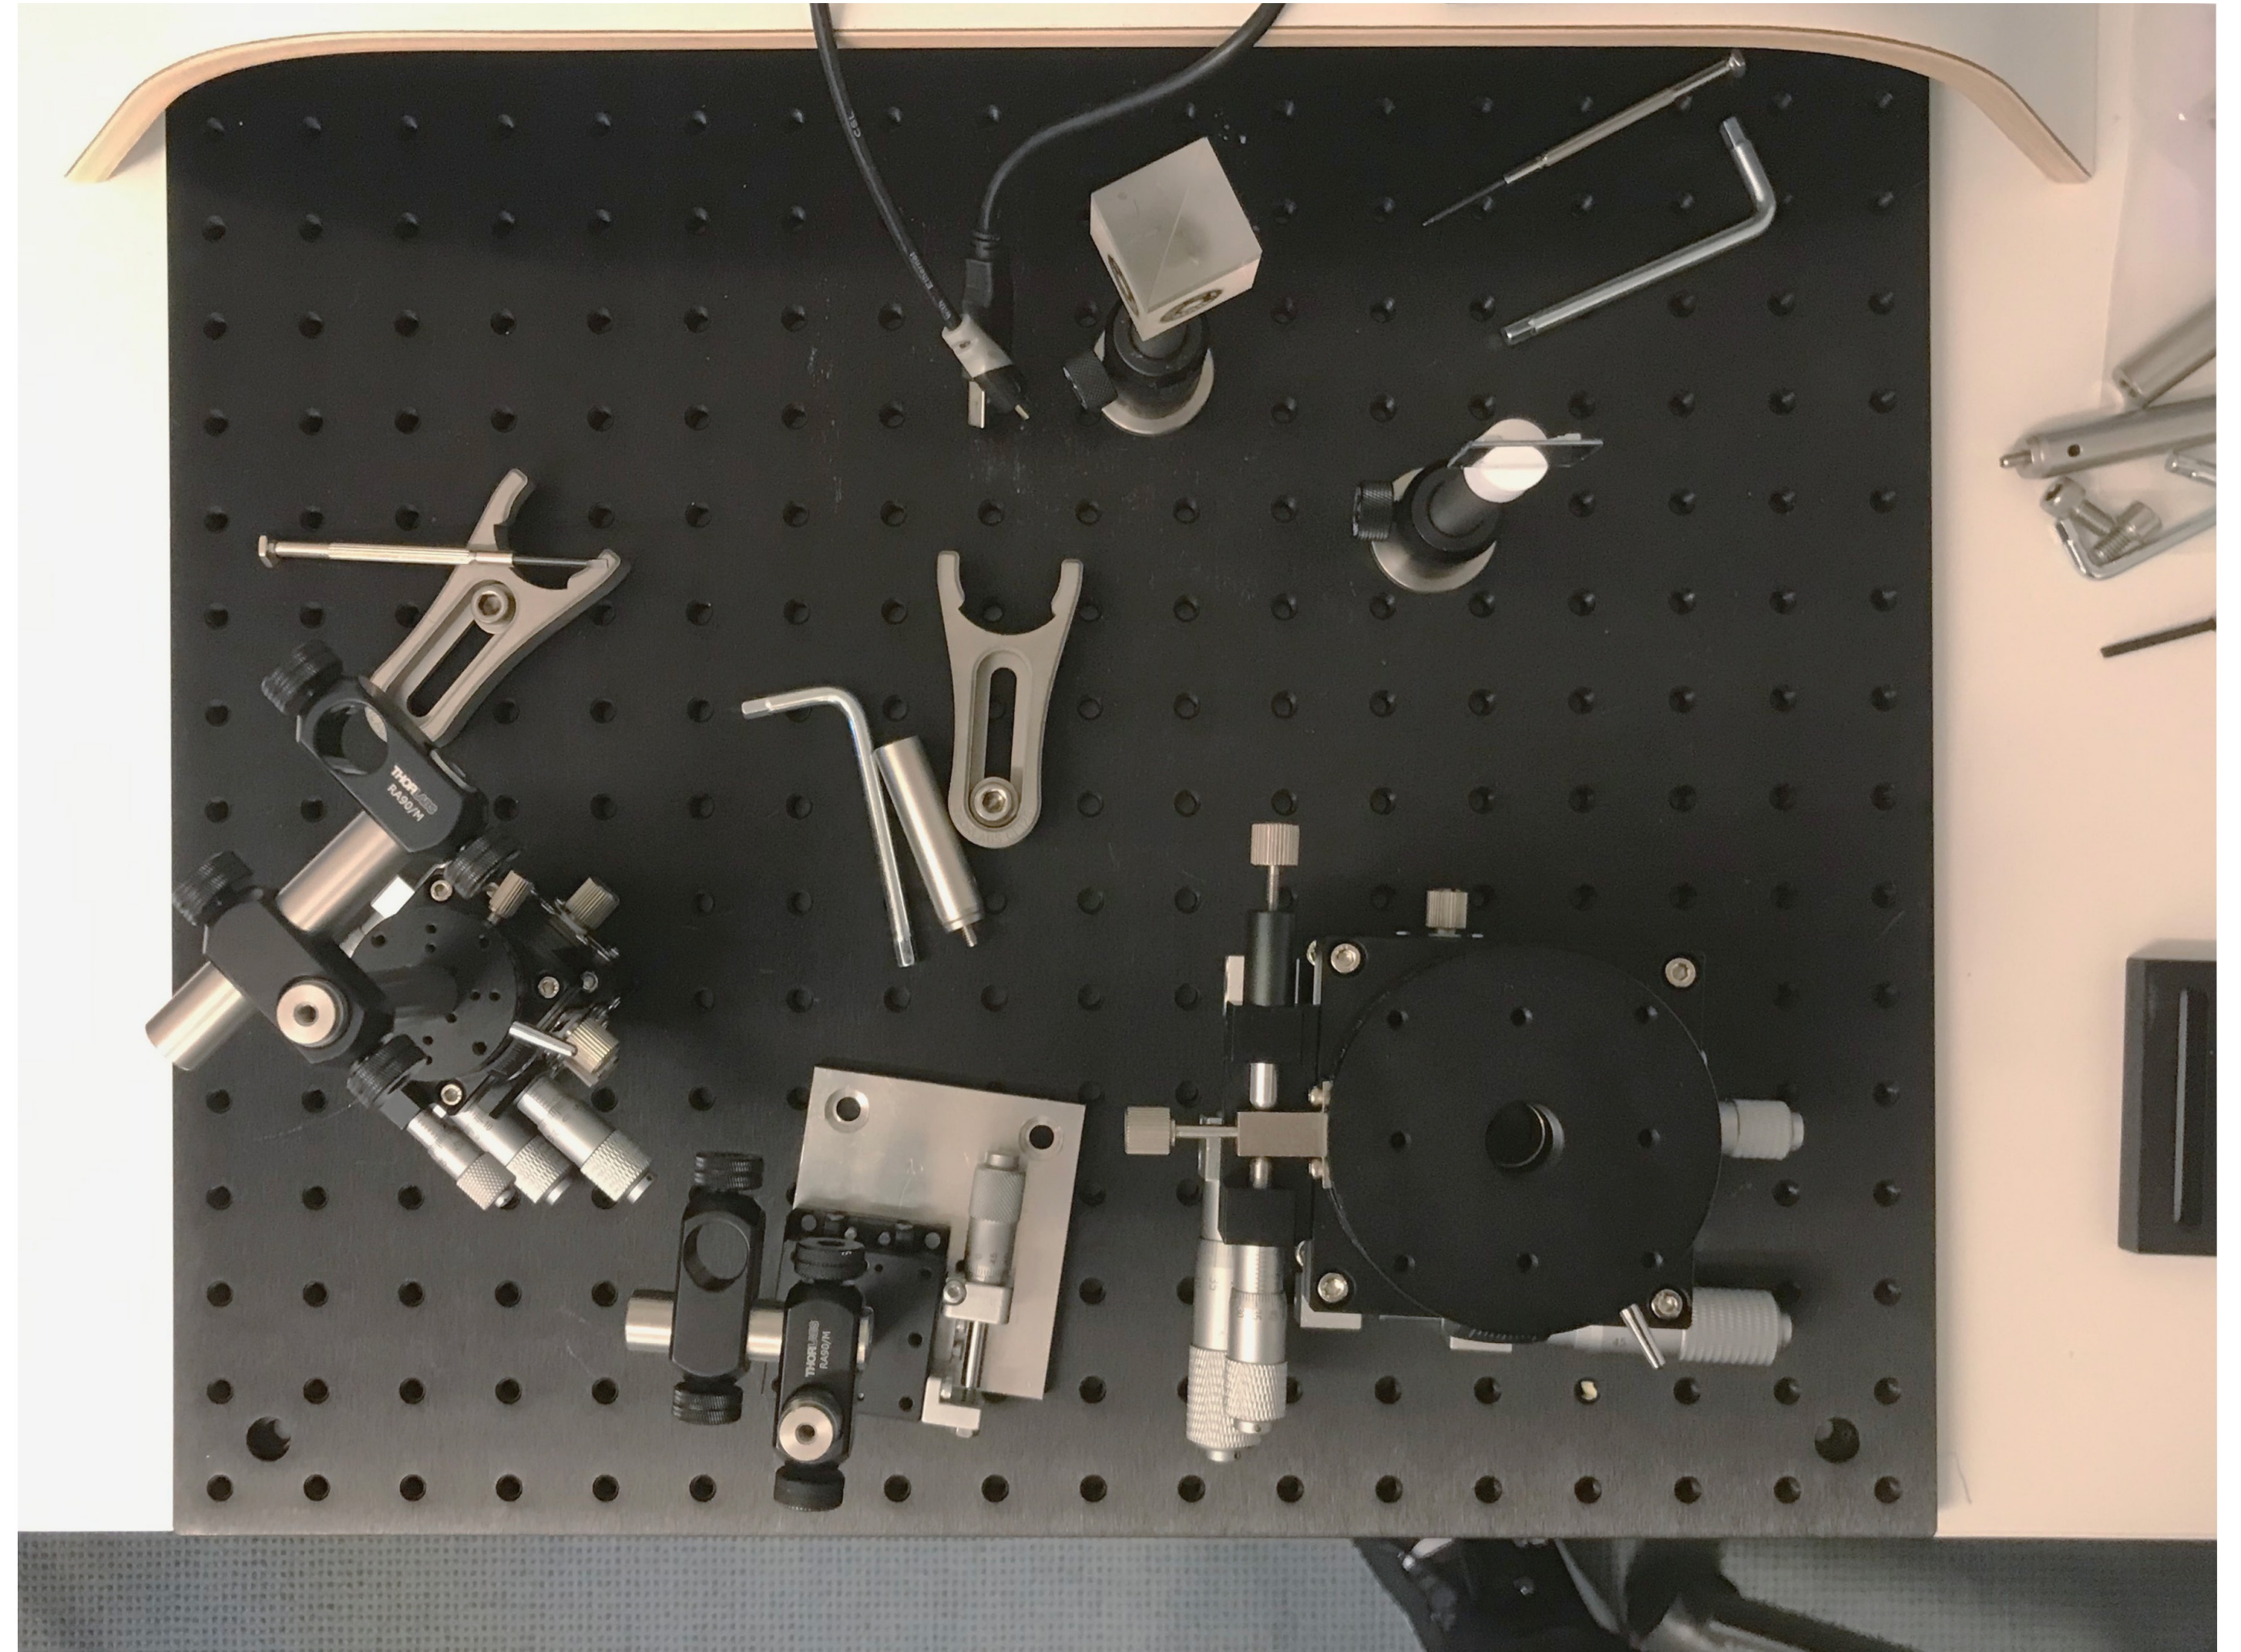

We'd like you to explore and prototype new interactions with AR technology. Potential topics could be...

App vs object based interfaces

AR controllers

Co-located AR

...
